The Alberta Hog Marketing Plebiscite will be held on June 11, 1964, and the marketing of hogs will be held on June 11, 1964.

On the contrary, it is the intention of the Hog Marketing Plebiscite that a plebiscite will be held to give time to re-draft, and develop the marketing board plan in the light of producer criticism and possible changes in the Agricultural Products Marketing Act.

It is hoped that this re-draft will be a more workable and more acceptable basis for hog producers to go ahead with setting up a new, better agency in Alberta which will be the kind of marketing job the industry needs.

Just when a plebiscite will take place depends on the speed with which the re-draft, and the study of the producers and consumers of the fact, can be completed. The Hog Marketing Plebiscite will work in the broadest field — as General Manager of CHB Radio and TV stations, Ed Johnston, from

Plant only licensed varieties in 1964.

Our second round and first variety surveys show that most farmers in the Prairie Provinces are growing the same varieties of grain crops that are licensed for sale in Canada and officially recommended for their particular district. However, there are a few grain growers in Western Canada who, year after year, continue to plant selected and recommended varieties. These farmers are not only buying the best varieties, but are also getting the best results from their crops. 8000 HRS FOR FARMERS

NATIONAL GRAIN RENEWS EXPANDED INSURANCE PLAN
Farming is one of the most dangerous occupations according to statistics. Recognizing this fact, National Grain Company has renewed their accident insurance program for farmers. The plan provides broad accident insurance coverage for customers who have delivered 800 bushels or more of grain to a National Grain elevator in the twelve months prior to the accident. Under the plan, coverage is automatic — the farmer does not have to register with the Company, nor fill out any forms. Insurance coverage continues with the sale of deliveries to a maximum of \$5000.00. There is no deductible clause in the policy. Farmers who are also covered by the National Grain Accident Insurance Plan. Farmers must also be covered upon application. The plan covers all accidents anywhere in the world at any time.

A National Grain spokesman reported that an average of 100 bushels are sold every month and in the past 6 months, 61 claims have been paid. The Accident Insurance Plan is a feature of the National 70 farmer benefit program.

Complete details are available from National Grain Elevator Managers.

"OUR ALBERTA HERITAGE"

WOP MAY'S FAMOUS RESCUE FLIGHT

Wifred May, known as "Wop" to his friends, was an Alberta pioneer with wings. After winning his DFC in World War I, this enterprising Edmonton flyer helped start a small-time charter service. Then, in the 1920's he made aviation history - a 720 mile, mid-winter flight - in an out-dated plane - raising vital drugs north to epidemic-stricken Fair Vermilion. After two days the news came back that Wop May had succeeded. Two thousand proud Edmontonians cheered the frost-bitten pilot when he touched down at home base. News of the historic flight made world headlines, and led to the rescue of the north. Wop May went on to win more honors for leadership in Canadian flying. A pioneer whose exploits are written into the Heritage of ... OUR ALBERTA.

This is a sample of the stories of pioneers and courage in Calgary Press's new publication, "Our Alberta Heritage" that comes to you this fall.

The '64 Olds Lost

We didn't think it was possible, but last week a 1964 Olds was completely out performed by a 1962 vintage vehicle.

The vehicle, owned by Bill McCann, Strathmore, is a World War II P-51 Mustang fighter plane, powered by a V-12 Packard Merlin engine rated at 1085 H.P. It is capable of giving one a real sensation of speed and acceleration.

Taking all things into consideration we weren't too embarrassed coming in second last.

P.A. The Oldsmobile has better maneuverability in downtown traffic.

LOANS FOR STUDENTS

Guaranteed by the Government of Canada

Purpose: The purpose of the Canada Student Loan Act is to facilitate bank loans for students who need financial help to continue full-time studies beyond secondary school level at Universities and other educational institutions.

Who can apply: Any Canadian citizen, or anyone resident in Canada for one year who intends to live in Canada after completion of studies, may apply for a loan under the Act. An applicant must be enrolled or intend to enroll as a full-time student at an educational institution approved by provincial authorities, and must meet the standards of academic qualification and financial need established by the student loan authority in the Province in which he applies.

Amount of loans: Depending upon individual circumstances and financial need, loans up to \$1,000 a year may be made, with a maximum of \$5,000 during a student's academic career. The Provincial Authority receiving applications and determining eligibility will issue a certificate to each eligible student stating the maximum amount the student may borrow. This Certificate of Eligibility is required before a student can arrange a Government Guaranteed Student Loan with the bank of his choice.

Repayment: Minimum-Paid and Delayed Repayment Period To assist students, the interest on loans during the period a student continues full-time studies, and for six months thereafter, will be paid by the Government of Canada. During this same period no repayment of principal is required, nor will any service charge or fee be payable by the student.

Method of Repayment: Borrowers will begin to pay interest and to repay loans six months after they cease to be full-time students. The current interest rate to students is 5 1/2% per annum. Normally the repayment period will be five to ten years. Borrowers have the right to repay loans in part or in full at any time without penalty.

Life Insurance: In the event of the death of a borrower responsibility for repayment of the loans will be assumed by the Government of Canada.

Where to apply: Students resident in Alberta, regardless of where they intend to study, should apply for a Certificate of Eligibility to:

Business Development Bank, Department of Education, Edmonton, Alberta.

The above terms are based upon the Canada Student Loans Act 1964 and are for reference only. All applications and loans are subject to the full terms and conditions of the Act.

Chemical Weed Control & Crop Sprayers

The key to effective and economical control of weeds in field crops is the use of chemical weed control. This is especially true in the case of alfalfa, where weeds can reduce the yield by as much as 50 per cent. The use of chemical weed control is the only way to ensure a high yield of alfalfa. The use of chemical weed control is also the only way to ensure a high yield of other field crops. The use of chemical weed control is the only way to ensure a high yield of other field crops. The use of chemical weed control is the only way to ensure a high yield of other field crops.

the difference is dramatic for '65!

Impala Sport Coupe
A General Motors Value

'65 Chevrolet

It's longer, lower, wider—with the kind of motor comforts that'll have any expensive car winking wondering why it didn't think of them first. More shoulder room, more legroom by foot.

Motor's Super Sport Coupe

'65 Corvair

New style, new ride—and plenty of Six and V8 stuff. Here are all the things that have made Chevrolet Canada's popular new-stand car—plus some new surprises that promise to make it come on stronger than ever for '65.

'65 Chevy II

It may well be the most expressive-looking thing that's ever been laid out on a car. But that's it. The big difference this year being that Chevy II's narrow-but-monumental efficiency now comes decked out in a deluxe new look.

Chevy II Nova-Drive Sedan

'65 Corvair

How's this for sport with an international flair? It's a new top-of-the-line Corvair, now V-8—the Sport Coupe. One look at it, or any of the Monza or SS's, and you can tell there's a Corvair revolution underway—all over again.

It's beautiful, it's cheap for '65—Chevrolet Corvair. Chevy II, Corvair & Corvair—at your dealer's.

But because three-quarters of all fires happen in the home, and because the house is the most dangerous place...

David Kilford

of Sherwood Park

AN ALBERTA JUNIOR CITIZEN OF THE YEAR

It was early Spring - pussywillow time - and David and his three friends wanted to surprise their mothers with bouquets of these early spring blooms. Suddenly there was a cry for help! One of the children, Gloria Summers, had slipped into the icy water of a partly frozen lagoon. Her brother Patrick jumped in but was unable to reach his sister. Quickly 10-year old David lay down on the ice, while a courageous friend Jonathan Rogers grabbed his ankles. Thanks to this "human chain", David was able to reach and rescue his two friends. We congratulate David Kilford, who is also an active cub member. We also congratulate Jonathan Rogers for his part in the heroic rescue, and thank Alberta's Weekly Newspaper Editors for their active co-operation in the Alberta Junior Citizen of the Year program sponsored by Alberta's investor-owned electric utility.

Mr. Garvin, Vice-President, was then called upon to present the Sports Award on behalf of the students. He stated that the students who were also of great importance to the school. All students must attain a certain average to be able to take part in the field of sports and surprisingly enough many were high in the academic work and also excelled in the field of athletics.

Salutatorian for the girls, Judy Hines; Sherry Tate, Joanne Hines; Salutatorian for the boys, Roy Christensen; Gary Knapik for Gregory.

Our Principal, Mr. Thibault, then gave a brief talk on the changes made in the Diploma Course. There are only 10 per cent of our students who matriculate and go to University, the school program has been expanded to help these other students get their additional requirements for a High School diploma.

The program also offers more variety and a greater chance for the student to finish his course in the subjects in which he would, more likely succeed in order to obtain his High School diploma.

The clock will go to Miss Fidler of Grade IV for having had the most correct answer of 100 correct answers.

Mr. Thibault then introduced the teachers:

Grade 1: Mrs. Dabney; Grade 2: Mrs. Watson; Grade 3: Mrs. Cullen; Grade 4: Miss Fidler; Grade 5: Mrs. Gorman; Grade 6: Mr. Dawson; Grade 7: Mrs. Cameron.

AN ALBERTA JUNIOR CITIZEN OF THE YEAR

At sixteen years of age, Albertine has proved herself a worthy Junior Citizen by her unselfish care and devotion to her family. Her mother, after a long illness, passed away last December.

For over two years Albertine has cheerfully helped her father with housekeeping, meals, looking after two young brothers every day - always with competence and good humor.

This has not prevented Albertine from passing her Grade 9 examinations with an A standing. Her ambition is to become a social worker - and she'll make an excellent one!

We congratulate Albertine, and thank Alberta's Weekly Newspaper Editors for their active co-operation in the Alberta Junior Citizen of the Year program, sponsored by Alberta's investor-owned electric utility companies.

Standard

By Mrs. J. H. Webb
Just before the Standard began its history-making journey, the Standard's first trip was called out to the farm where the pump house was located. Mr. Webb had been throwing out pipes by burning that straw which appeared to be the best material for the pump house and the straw appeared to be in the best condition to be used in the pump house.

Cent. and Mrs. G. C. Menden and family arrived by air Wednesday from Port Alberni, B.C., to spend two weeks. They don't think much of our Alberta winter weather.

Mr. and Mrs. Stanley Rosenbaum and Mrs. Bill Hertz arrived in Calgary last Monday evening for the Christmas holidays. The Rosenbaums' presentation of "The Merchant" (Stanley sings in the group). They were caught in the blizzard and spent a cold night and day in a hotel. They had to wait all hours for a taxi-cab, and were glad to get home about 5 p.m. Sunday.

Also among those caught in Monday's storm were Mr. Lester Rieck and his family. Mr. Rieck and his family were stranded at the "Twin Peaks" and Mr. Bill Harris who spent the night in the car just west of Kamloops.

Mrs. Mable Rosenbaum has been a patient in the Bessie Hospital for some weeks, receiving treatment for rheumatism.

Mr. Dan McCowan, from Kelowna is visiting at the Twin Peaks.

The community's sympathies to Mrs. Theo Hubert can be seen in the Standard for the past few days. Her husband and father on Tuesday.

Adjusting Ration To Feed Supplies

Don't buy hay without first checking the comparative cost of grain. Mr. G. D. Menden, Supervisor of Alberta's Crop Improvement Service.

While cattle must have a minimum amount of roughage, Mr. Menden says it is often more economical to feed only the minimum and make up the balance with additional grain. For example, if medium quality grain has costs \$2.50 a bushel, a farmer could afford to pay up to \$1.50 for hay.

Yesterday the Sunday Standard estimated that at 11:00 a.m. 11:00 a.m.

Among the better for the hay days are Mr. Joe Gregory (1700) in Saskatoon where he is taking care of the hay. Mr. Gregory is a member of the U. of A. in Regina. Mr. Murray Nelson (1000) in Regina. Mr. Nelson is a member of the U. of A. in Regina. Mr. Nelson is a member of the U. of A. in Regina. Mr. Nelson is a member of the U. of A. in Regina.

Congratulations to Mrs. Jean J. Jones who celebrated her 60th birthday on December 20. Despite the cold weather, an excellent crowd attended the annual Christmas Dinner in the Community Hall played while the crowd gathered. Mr. Henry Pedersen, ex-Master of Ceremonies, presented a program of piano solo, songs, handkerchief dance, and handkerchief dance.

Stella Chase, once-over, distributed candy bags to the old drive children who arrived at the Standard in a parade on Wednesday morning.

of course, with complete burning of the daily grain ration.

Although livestock producers are experienced in adjusting rations to available feed supplies, questions do arise regarding the extent to which grain can be substituted for hay and other feeds. Mr. Menden recommends a pamphlet entitled "Adjusting Livestock Rations to Available Feed Supplies." It is published by the Department of Agriculture for Canada, Alberta, and is available from the Department of Agriculture.

Adjusting Livestock Rations to Available Feed Supplies can be obtained from District Agricultural Agents and from the Extension Service of the Alberta Department of Agriculture, Edmonton.

Educational Committee Meeting

(Continued from Page One)
The Education Committee has been organized and authorized to make all arrangements for this year's travel program, including the selection of the students in consultation with appropriate bodies and the school principals.

Continued School Meeting
The committee meeting, Phillips reported that consideration be given on the 1961 budget in the changing over of the heating system in the Clevedon school from coal to propane.

Subsequent Superintendent's Report
At 10:00 a.m., Superintendent of Schools presented his report covering the 12 municipalities.

1. Presented a written report showing the grade 12 County of Wheatland results in students and pure grade 12 average ratings. The report clearly indicates that the province of 12 students is a fairly average province of the nation of this student when writing grade 12 examinations.
2. Bought an article on vocational education for the students of the County and read excerpts of it.
3. Advised that there are now 100 industrial arts shops operating in Alberta however, there is no mention of 12 students in the school because of Board policy. Mr. Hudson said the few industrial arts programs that are presently in operation for Alberta schools.
4. Reported that the Calgary RTV Association has held a series of meetings and seems to be moving at a favorable pace.

Standard

By Mrs. J. W. Wain

A good crowd turned out last Monday evening for the home of Mrs. and Mrs. Chas. Jensen to honor Mrs. Valma Jensen of Strathmore. The guests were well represented and the evening was a most enjoyable one.

At the variety night program, sponsored by the P.U.A. Sub-District of Wheatland, to be held on February 11 at the Standard Community Hall, the place seemed to be full.

Three well-known farmers in and around the district are taking part in a joint discussion on "Farm and Cattle and Speculation Farming," which will take place on March 11 at the Standard Community Hall. The P.U.A. Sub-District of Wheatland will hold their annual meeting that night beginning at 8 p.m.

A Valentine Theme was used to decorate the banquet of the County Fair on the evening of February 1 when Mrs. Jensen Jensen was honored at a bridge dinner.

Mrs. Jensen Jensen was married in Strathmore for an exchange of rings and, as a surprise, she was presented with a beautiful diamond ring by her husband.

Following a light lunch, Mrs. Jensen Jensen was presented with a beautiful diamond ring by her husband.

Who will you nominate?

These enterprising young Albertans have good reason to be proud of themselves as have the public-spirited weekly newspaper readers who nominated them. This is why we are proud to award special certificates to the nominators of Alberta's Junior Citizens of the Year. Typical qualifications for Junior Citizen Awards are acts of courage, initiative, work done for community, church and in the home since August 1964. If you know a young person between 6 and 16 years (or a group) deserving of special recognition for any reason whatsoever, please help them to become Junior Citizens of the Year. Simply give five details to the editor of this newspaper.

Winners selected each year by a panel of Alberta's Weekly Newspaper Editors. All young people nominated will receive a special certificate of recognition.

Alberta Junior Citizens of the Year Awards are sponsored by Alberta's investor-owned electric utility companies with the co-operation of Alberta's Weekly Newspaper Editors.

When the Rockyford and Strathmore branches of Superior Feed & Supply Ltd. were opened in 1965, it was a significant step in the company's expansion program.

The initial capacity of the Rockyford branch was 100 tons per month, and the Strathmore branch was 50 tons per month.

To improve on communications between the two branches, Superior Feed & Supply Ltd. has established a direct line between the two plants.

With this new line, the company can now handle up to 150 tons of feed products per month, a significant increase from the original capacity.

Testing Precedes Marketing

Before research, practical tests and commercial proving are the means by which all the data for the feed business are gathered.

Canada's first research laboratory, which was established in 1965, has been a major factor in the company's success.

Dolan

Your reporter says a couple of days in the hospital means that an important job must remain on the ground.

Mr. Dolan and I attended a luncheon reception for our former business friends and colleagues at the Hotel Strathmore on April 28. It was an informal get together with the City Clerk, ending with a luncheon at the Hotel Strathmore. The luncheon was enjoyed very much by all present. The speaker, Mr. Dolan, was very entertaining and his remarks were very much appreciated.

Mr. Dolan is a well known figure in the Strathmore community. He has been a member of the Strathmore Lions Club for many years and has been very active in its affairs. He is also a member of the Strathmore Rotary Club and has been very active in its affairs as well.

20th Anniversary

The Rockyford Lions Club, which was organized on May 19, 1918, is celebrating its 20th anniversary on May 19, 1938. The club has been very successful in its efforts to help the needy and to promote good will among its members and the community.

At a banquet held at the Rockyford Hotel, the club members and their families gathered to celebrate the occasion. The banquet was a great success and the club members were very happy to be able to spend the evening with their families.

My son and Mrs. J. M. Hargreaves spent a week of vacation in Carceland, B.C. with their families. They had a very enjoyable trip and saw many beautiful sights. They also saw many interesting people and animals. They had a very good time and will be back soon.

Is it that nagging headache again?

Headaches are caused by many factors, but the most common is tension. Tension headaches are caused by the muscles in the neck and shoulders becoming tight. This can be caused by stress, worry, or fatigue. The best way to prevent headaches is to relax and take breaks from work. You can also use heat or cold packs to relieve the pain.

The Canada Pension Plan and its benefits

Here is what the Canada Pension Plan will do for people like Thor Andersen, a farmer who works for himself and makes \$1,000 a year.

The Andersen are both aged 45 and have no family. If Thor's earnings continue at \$6,000 a year until he reaches age 65, he can look forward to a retirement pension of \$23.50 a month from the Plan. Thor, plus the \$75 each Mr. and Mrs. Andersen will receive from Old Age Security, will give them a total of \$231.33 a month—equal to 76% of Thor's previous average earnings.

If Thor becomes disabled anytime after 1970, having contributed until his disability begins, he will get a disability pension of \$27.50 a month. This will continue until he becomes 65 when he will receive his retirement and Old Age Security pensions.

Should Thor die anytime after 1967, having contributed until his death, his wife will receive a widow's pension of \$36.25 a month until she becomes 65. From then on she will get \$22.50 a month—\$20 from the Plan and \$2.50 from Old Age Security. At the time of Thor's death Mrs. Andersen will be entitled to a lump sum payment of \$250.

All benefits under the Plan will increase their value. The actual benefits payable will probably be higher than those given here now. Benefits will be adjusted to meet changes in living costs and in wage levels before they are paid and changes in living costs after they become payable.

What will the Plan cost you?

If you, like Thor, in a particular year, have self-employed earnings of \$4,000 you will pay \$122.40 in instalments, in the same way you pay income tax.

This advertisement is one of a series which relate some of the important benefits of the Canada Pension Plan to individual circumstances.

Issued by authority of the Minister of National Health and Welfare, Canada. The responsible body is the Canada Pension Plan.

WHOSE CHILDREN

It has been universally accepted that the state assumes the responsibility for the care of children who are in need of protection. The state also has the duty to ensure that the children are properly cared for and that their interests are protected.

For the state to do this, it must have the authority to take action. The state has the power to remove children from their parents and place them in foster care or in a state institution. This power is derived from the state's responsibility to protect the children.

The state's responsibility is not limited to the physical care of the children. It also includes the responsibility to ensure that the children are properly educated and that their emotional needs are met. The state must also ensure that the children are properly cared for in terms of their religious and cultural beliefs.

The state's responsibility is a heavy one, and it must be exercised with care. The state must ensure that the children are not harmed by its actions. The state must also ensure that the children are given the best possible chance of a good life.

This is an Alberta Oilfield?

Can you find the oilfield? Is there, even though it isn't obvious, because this land has been returned for agricultural purposes. While the surface was being used for agricultural purposes the Alberta Petroleum Commission, a branch of the Alberta Department of Mines and Technical Surveys, administered continuous-on-land exploration and, when exploration ceased, continued standards for the maintenance of the surface. The surface of oil lands need for drilling, oiling, overlying

and pipe-line must be restricted to serve Alberta's land for future generations.

Since 1947 Alberta has experienced tremendous development of its oil and gas resources. Through public facilities established by the Legislature and administered by the Department of Mines and Technical Surveys, these resources have been developed in an orderly manner, for the greatest public good, saving Alberta 1,225 millions of dollars.

ALBERTA JUNIOR CITIZEN OF THE YEAR BULLETIN:
OILFIELD TEEN CLUB ORGANIZES "MEALS-ON-WHEELS"

Each row (left to right): Ronald Link, Chuck Edwards, Lawrence Reid, Vice-President; Douglas Price, President; Frank Ross (left to right); Arlene Lang, Sec.-Treasurer; Margaret Beller, Social Secretary; Marlene Macgregor, Social Secretary.

Savior citizens in the Turner Valley district are grateful for the foresight and concern of a group of enterprising teenagers from this southern Alberta community.

The Oilfield Teen Club began its "meals-on-wheels" project last Christmas to give aged and infirm citizens a good Christmas dinner. That was just a start. Hot, nutritious meals are now supplied regularly.

For this year, it has adopted a Korean boy through the Foster Parent Plan, worked for the Turner Valley Senior Club, furnished a room in the Turner Valley hospital, sponsored social and educational activities. One member recently won three University scholarships, including a national award by the Canadian Legion.

We congratulate the Oilfield Teen Club - this year's Weekly Newspaper Editors for their active co-operation in the Alberta Junior Citizen of the Year program, sponsored by Alberta's investor-owned electric utility companies.

This is one of a series of Junior Citizen Award announcements. Our special thanks to Graham Smith, Editor of the North West News and newspaper of the Group Award winners.

Why are you headed for higher automobile insurance costs?

Because an "average" accident last year cost \$810...a jump of \$113 in just 5 years

Automobile insurance rates in most areas of Canada will increase in 1968. Producers ask why premiums should rise again. Here are the key reasons:

Every year the number of vehicles on Canadian roads is increasing...but the total cost of accidents in the past five years has gone up three times as fast as the number of cars which together must provide the money to pay for these accidents.

And during the past five years the number of accidents has soared much faster than the number of cars that are on the road.

In that same period the total cost of insurance claims has doubled.

Since 1960 this claims cost has been climbing at an average of \$40 million a year. This year's insurance bill for accidents will total \$400 million.

Each accident costs more than it did five years ago—the result of more expensive and luxurious cars.

Drivers with a three-year accident-free record save a 25 per cent discount off basic insurance rates. But even good drivers have accidents. Right? That is why the basic rates go up for everyone—even the good driver who still gets his discounts.

Without Doubt (Ontario News Association)

ALBERTA JUNIOR CITIZEN OF THE YEAR BULLETIN: HAYNES BOY'S INITIATIVE HONORED

When their father entered a Calgary hospital several months ago, David and Duane Linklater proved themselves sons to be proud of. They took over the duties of milking seven cows, tending the care of other farm animals, and still kept up their studies in school.

Mrs. Linklater suffers from arthritis, and the boys helped twenty-five of bread each week, made the family meals and helped her with other household duties. David is fifteen years old, and Duane is thirteen.

Their youngest sister Kathleen cannot walk. The two boys carry her everywhere, showing patience and understanding.

Two boys still find time for the East Lacombe 4-H Beef Club, and are active in many ways.

We congratulate David and Duane Linklater. Our thanks to Alberta's Weekly Newsprint Edition for their story, and to the Alberta Junior Citizen of the Year program, sponsored by Alberta's Investor-owned electric utility companies.

This is one of a series of Junior Citizen Award announcements. Our special thanks to Tom Ford, Editor of the Lacombe News and to David and Duane's mother, Mrs. J. Linklater of Lacombe.

Showoff Driver Immature, Interior

The motorist who drove with little regard for his own or others' safety would be suffering from an immature attitude, according to the Council on Highway Safety (CHS), a member of the Canadian Automobile Association.

The council with an "immature" feeling that he is superior to those who consider him inferior, because he is a "show-off" driver, is a lack of the spirit of a motorist. The fact of the matter is that the driver who is a "show-off" driver is a danger to himself and to others. He is a danger to himself because he is a danger to others. He is a danger to others because he is a danger to himself.

The Hope In Our Customs

The Rev. John Mayes

All the world loves Christmas and most of the world has contributed something toward the customs associated with its celebration. The various attributes of the bright season have been added to the existing customs by the passing centuries and are now so blended together that to create over the universal yearning lines of harvest and bounties in a spirit of giving and good will is an easy matter. It is in the Christian world and the hope we realize now centers upon Christmas.

Strathmore Improvements

Mr. Frank Irving came into this city on last week and made some very surprising observations.

In the past few years, Strathmore has really seen a lot of improvement and many buildings have been erected and most of all hundreds of thousands of dollars have been invested.

Cluny 4-H

We have great mathematics in the crowd! Oliver Corb's, Bob Goldsmith and Glen Tyle were asked to mark the results of the month.

The club has decided to have a brown ball game next month. It should be fun. The next to will start an hour earlier than they did not attend.

We were also very happy with the attendance of the last meeting and glad to see new people joining.

We also had a Christmas dinner with everyone there.

Our leader, Dave, gave us a short history of previous years. Most of the members that were here were back and all the children to follow in their footsteps.

We should have a member that everyone would like to see. December 15th all of the children are a pretty fair weight.

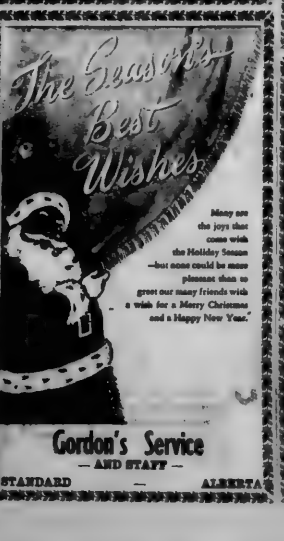

So far everyone has taken an active part in our club and hope everyone will keep up the good interest in the club.

MERRY CHRISTMAS AND HAPPY NEW YEAR

ALBERTA JUNIOR CITIZEN OF THE YEAR BULLETIN:

WANWRIGHT GIRL HONORED FOR DEVOTION TO FAMILY

At fifteen years of age, Judith Wanwright has proved herself a worthy Junior Citizen by her unselfish care of and devotion to her family. Judith's mother, a courageous victim of ill health, is now confined to a wheel chair.

For over four years Judith, the only girl in a family of six children, has cheerfully taken over the cooking, baking, canning, freezing and laundry in the ranch home. Her older brothers are busy with outside work. Judith is also responsible for the care of her younger brothers.

This heavy load of responsibility has not prevented Judith from doing well in school. She also finds time to be an active member of the A-4 Greenhills Beef Club.

We congratulate Judith. Our thanks to Alberta's Newspaper Editors for their active co-operation in the Alberta Junior Citizen of the Year program, sponsored by Alberta's Investor-Owned electric utility companies.

This is one of a series of Junior Citizen Award announcements. The special thanks to L. W. Robertson, Editor of the Strathmore Standard and to Judith's nominator, Mrs. D. R. Smith of Wanwright.

This heavy load of responsibility has not prevented Judith

Standard Slated For Curling Rink

By Mrs. H. Smith
Mr. Gordon Brown, mayor of Standard has given the Strathmore Curling Club a letter of support regarding the Standard Curling Rink.

At a special annual meeting held on December 28th, the Village of Standard Council passed a resolution endorsing that a Curling Rink will be the Centennial Project for the Village and surrounding villages. In order to qualify for the Centennial Grant the necessary forms were completed and sent to Edmonton where they will be processed through to the Federal Government.

The Village Council received a letter from the County of Wheatland which stated that the Village of Standard is eligible for the Centennial Project a total of \$75,000. Residents, coupled with the approval of the Village which is 75% for the purpose of the Grant, the Project will receive an amount of \$25,000 in Grants.

The Village Council also voted for Walter Webb, Clerk, to be the chairman of the committee to be in charge of the project. The committee will be in charge of the project and will be in charge of the project.

OUR FIRE

We had a fire at the "Standard" this morning. Lester Jones attempted to enter the building but the smoke was too dense so he returned to replace the brush, until the fire was out.

The fire had broken out under the press and the floor which has been situated in oil and petroleum had over the course of years, was smoking, and under the floor, the fire broke out.

The fire brigade came and the fire was under control, but it did the fire had to cut several holes in the floor. Water damage, smoke damage, and of course, the electrical wiring in the various rooms were burnt up.

The loss of the paper has been priced by the effect method of printing in the North Hill Hotel, but we should be bringing and moving with our own equipment next week.

The damage is not too considerable in the Strathmore Standard, and we wish to take this opportunity of thanking the Strathmore Volunteer Fire Brigade for their prompt and efficient service.

Samuel Crowther Jr. Volleyball

Annual team tournament of the Strathmore volleyball was held on Saturday. All the teams from the league were present either in the 10:30 or 7:30 of the night championship game.

The game that decided the match was held in the gym when Larry Phipps' team beat Doug Smith's team. This was a victory for Larry's team.

Service

have to be met in the first few years of operation.

Soil Testing Service

A typical winter scene shows the ice clogging the river jams in the lower river after events for visitors have later months.

Service will be expanded very considerably in the new laboratory. Farmers will submit soil samples in the fall and a second round about three weeks later, which will give them ample time to order the fertilizers they need for next

The laboratory will be able to handle about 50,000 soil samples a year. Initially, however, the lab will be about 12 to 18,000 and it may be necessary to put a limit on the samples received until the move to permanent quarters is made.

Dr. Rennie said there will be a modest charge for the testing service which is expected to become self-supporting in a few years. He added that the comprehensive sampling and recommendations will be well worth the expense.

Carnival

Six to ten Years— Tom Murray, Aurel McBean, Ricky Drew.

Fifteen and over was the biggest class of the day. The mothers were the vote of the judges as they counted the ice as Snow White and the seven Dwarfs, Prince Charming and the Wicked Witch.

The results of the races were as follows:

Pre School - Ellen Brown, Mary Gordon Brenda Risseaux.

Six to Ten Years (Boys) Tom Murray, Stanley Yule, Gary West.

Next on the program was the truck wagon race. The entries in the main heat were Phil Goss, Gene Fiddes and Brian Coleman. The judges are still in conference trying to figure out a winner. We had some experienced judges, but

...said they had never seen a
name like it before. Phil Gooch's
experience showed up part
around the rank until they got tangled
and up with Brian Coleman's green
and experienced horses.

Ross Fadden's team was doing
until he caught his pants on
he fence. At least this is what he
said but how could a team sitting
in a chuckwagon catch his pants on
a skating rink fence? The judges

As I stated before, we at this time have not declared a winner yet. I am sure the crowd was well entertained and these three drivers are all willing to take on anyone anytime, anywhere, but with their own rules.

would like to thank everyone again for coming and also for taking part and hope next year it will be bigger and better than ever

Co-Op Roaching Many Goals By Working Together

Cooperatives are on the March ...

Pointing the Way to the Future!

Strathmore Co-op Store

AND Farm And Building Supplies

STRATHMORE ALBERTA

With such an increase in volume that wholesale facilities in the area have been increased by a new Feed Mill and Warehouse to ensure improved service and faster efficiency.

Located on 30 acres at the junction of Highway No. 1 and the Strathmore and Forest Hill roads, this new Co-op Store and Feed Mill were built at a combined cost of \$1,600,000.

The Feed Mill produces a complete line of Co-op Feed, soft, molasses and pellets, and has an annual production potential of 25,000 tons.

The Warehouse - (105,000 sq. ft.) has provision for inside loading by 10 trucks and a large rail Clear height of 20 feet. There is also an airplane ramp for the 1000 sq. ft. office building is completely air-conditioned.

Many officers and staff of our Co-op plan to attend the official opening of these new outlets in Calgary on MARCH 10, 11 and 12 to become familiar with the expanded services available. This will enable us to improve our service and increase savings to all members.

We wish to express appreciation to the members of all other participating associations for their foresight and initiative in helping to build these plants - proving once again that many goals can be reached when consumers unite through Co-operative.

Srinm Declares March '66 Good Seed Month Varieties Of Grain For Alberta

Charles Murre from Delta, president of the Alberta Branch of the Canadian Seed Growers' Association, announced that the Minister of Agriculture, J. G. Bennett, has declared March 1966 a Good Seed Month for Alberta.

The declaration is a recognition of the fact that March is the best time to plant seed in the province. It is a time when the weather is generally favorable for planting, and the soil is warm enough to allow for quick germination.

NOTICE

FOREIGN SEED DISTRIBUTION

The County of Wheatland and Senior Governments will assist some farmers requiring forage seed to rehabilitate and develop their land. Seedy soils liable to damage by wind or water, alkali or land infested with bad perennial weeds may best be into grass. Irrigated lands are excluded under Government policy.

Amount of assistance is two-thirds price of grass seed, but the policy is not intended as a cheap source of grass seed, maximum assistance \$70.00. Application for seed to good grain land into grass will not likely be accepted. It is necessary to contact Dave Thomas, Fieldman, or Ken Walker, District Agriculturist to make out your application.

Approved applications will be given an order by the County Office on the Wheat Pool forage warehouse in Strathmore.

You Profit by Good Seed

FARMERS ARE URGED TO USE WHEAT POOL SEED WITH A GOOD GERMINATION PERCENTAGE IN ALL FERTILE SOILS. WEED CONTROL IS CAREFULLY SPENT.

Our Alberta Heritage
GREAT NORTHWEST PIONEER VILLAGE
See how one man recaptured the spirit of
Alberta's pioneer past.
The Great Northwest Pioneer Village is more than a museum—it is
a monument to the pride one man has in our Alberta heritage. That man is
Earl Denard, son of a pioneer family. He has assembled a fascinating
collection of thousands of relics and artifacts, housed in twenty-five original
pioneer buildings. Mr. Denard's unique collection includes antique cars and
engines, coffee and business, the first Indian school built on the Western
Reserve by Rev. A. B. Baird in 1857, and an authentic Greek Orthodox chapel
that accommodates just two worshippers.
This living historical village represents a tremendous outpouring of interest, time
and effort in creating a unique tribute to the pioneer history of our Alberta.
Take your time out to visit our Great Northwest Pioneer Village on Highway 2A.
It's located just west of Edmonton on Highway 2A.

Educational Committee Meeting

Minutes of the meeting of the Board of Directors of the County of Strathmore No. 36 held at the County Office, Strathmore, on Monday, June 13, 1988 at 20 minutes with the following present:

Chairman, M. Phillip, Members: E. Charnett, M. Gregory, Mr. J. Hendry, J. A. MacArthur, C. Madson, C. Miller, V. Bluff, R. Thurston, B. Wilson, and Superintendent of Schools, B. Williams.

Moved and passed that the minutes of the May 30, 1988 School Committee meeting be adopted as read.

Mr. J. H. Cook, County Architect, advised the meeting on the estimated cost of the new Strathmore Industrial Arts Building.

Moved and carried that the County School Committee apply for final approval of plans and specifications for the new Industrial Arts Building to be built on the site of the old building.

Moved and adopted that the minutes of the May 31, 1988 Strathmore School Committee meeting be adopted as read.

Mr. W. J. Ward of the Highway Traffic Board attended the meeting and outlined a Traffic Safety Education Centre available to school systems. The Department of Highway in co-operation with the Department of Education plans to offer this course as an extra-curricular activity with instruction to be carried out by a person qualified to deliver training as a result of a letter from certain manufacturers at no charge. The cost per student would be approximately \$10.00 and in all probability the program would require some form of reimbursement of this amount. It was brought out that any student who successfully completes the course is entitled to a 15 to 20 percent reduction in insurance.

The Highway Traffic Board will be making the course very soon.

Moved and passed that the County School Committee be instructed to inquire into the driver training program in use of the County Schools in the very near future.

Moved and adopted that upon the request of T. Bussan the County of Strathmore be willing to terminate the contract on Barte Vale route No. 3 and transfer this contract to Mr. T. Bussan.

The Secretary read the minutes of the June 3, 1988 Education Committee meeting.

Moved and carried that Pamela Bartholomew be engaged as Supervisor of Elementary Instruction with duties to commence September 1, 1988.

Moved and passed that Guy Day be engaged as director of Guidance and Counseling with duties to be shared between the Three Hills School Division and the County of Strathmore No. 36 with duties to commence September 1, 1988.

In addition to the three ladies mentioned in last week's paper, Mrs. W. Kitchie and Mrs. H. Brown were with the Hussar to camp near Head Mt. I saw the Hussar and the three ladies on the trail of mosquitoes to the camping site about 15 miles from Head Mt. and Mrs. Kitchie took a bus load of children, infants and helpers. They returned Saturday evening after a very fine week.

Three songs with words in parody were sung for the occasion. Mrs. Lund had a reading about the green room in the wedding ceremony.

Barbara Andersen sang a solo, "We'll Stand by Him With Him." Long-time friend of the bride-to-be, Edna Jensen gave the address to the bride and presented her with a wedding cake made of gifts from many friends.

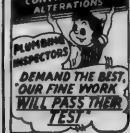

Margaret Rasmussen acted as Master of Ceremonies.

As a result, the IRS has issued an O-asset guidance. Under the new guidance, if a partnership is an O-asset, the estate tax treatment of the partnership will be determined by the partnership's tax status. If the partnership is a partnership, the estate tax treatment will be determined by the partnership's tax status. If the partnership is a partnership, the estate tax treatment will be determined by the partnership's tax status.

gift they can give in a year is calculated by a formula based on half the difference between the taxable income and the taxes

Finally, a person can make gifts that are not considered as value as he likes in one year, even though he gives them to different people. It is important to remember here that if the gift is over \$10,000 in value, it must be taxable. For example, if a person gave \$200 to another person, would have to pay gift tax on the \$200.

The IRS also has rules about how the parents do not retain control over the operation of the firm. Depending upon the type of arrangement, the parents may lose control by having preferred shares with voting power. However, an increase or decrease in the value of the stock will not affect the ownership of the firm.

**David took 17 years
of love from his
parents, first class
honours from his
school and \$8,000
from your pockets.**

Then he left.

Should left for good.
Billion high school student dies in car crash
and the headline. All that loss, all that brilliance,
all that money, all gone for nothing.
Automobile accidents take more young Canadians
than anything. More than doctors, more than all
other accidents put together.
It costs some \$8,000 in one moment to pro-
pose a student for teen-aging. A thorough high
school driver training program costs \$40 per
student, and takes 50 hours of instruction. Small
costs against the losses.

The automobile insurance industry promotes
young driver training. However, test books and
free instruction are given to high school teachers.
They in turn teach the students.
This industry also awards cash discounts on
auto insurance premiums to students who pass
200 courses.
Driver training isn't a bill. School boards with
experience know it's a proven method of reduc-
ing accidents. Urged and back high school driver
training in your community.
Stop the Deaths with us.

Brownies Fly-up

The church parties of the Nazareth Lutheran Church in Standard were filled with excitement on the afternoon of October 4, 1956 when seven new Brownies were enrolled in the 1st Standard Pack and five older Brownies flew up to Goldland.

Special guests to witness the ceremonies were the mothers of the honored Brownies, the Guides of the 1st Standard Co. and their leaders and former Brown Owl Mrs. Margie of Larsen. They were welcomed by new Brown Owl Margie Metke who also introduced new member as joining Mrs. Dorothy Russell. Lunch and coffee were served by Guides Lynn Devost and Terry Ann Gray who were working towards a Histess Badge that day.

After the formation of the Brownies Ring, Terry Owl Elaine Klemmensen brought the young candidates to the tableland where they solemnly made the Brownies promise that becoming full fledged Brownies Mrs. Shirley E. Volund, president of the Guides Association, was in

attendance to witness the ceremony. The girls with their Brownies then a gift from the sponsoring association, the Women of the church. The newly enrolled Brownies are Debbie Klemmensen, Marjorie Fick, Brenda Olson, Linda Nelson, Franck, Debbie, Susan Hansen and Sheila Hansen.

First year service stars were then presented to Gene, Nina, Nina, Hansen, Marjorie, Franck, Brenda, Linda, Debbie, Susan, Franck, Debbie, Susan Hansen and Sheila Hansen. The girls were then presented with their program, the highlight of which was the standard of Golden Land. Masterman Captain Nelson also presented the following proficiency badges: Second Class Car badge and Child Care badge to Margaret Jensen, a garden's badge to Joanne Hansen and Margaret Jensen.

Before closing, former Brown Owl Mrs. Margaret Larsen wanted to express her appreciation of the work done by all the Brownies and also her regret for having had to resign because of other personal commitments. She has

presented back from her resignation to Standard's little had at her. Debbie Klemmensen has been with the girls in the pack. Mr. Larsen was the first Brownie out of the old Standard Pack and gave five years of his service to the Standard Pack. This Brownie of the Standard Pack and the present Brownies remember him with respect and affection.

The girls' program then proceeded with their program, the highlight of which was the standard of Golden Land. Masterman Captain Nelson also presented the following proficiency badges: Second Class Car badge and Child Care badge to Margaret Jensen, a garden's badge to Joanne Hansen and Margaret Jensen.

LATER ON as more people got the hang of using the phone, they began to think they had something worth saying. All of which led to more wire, leading to still more phone connections.

TODAY you can call your friends in Canada... whether near or far... in Halifax or Houston. There are over 171 million telephones in the world, 91 million in North America. There are 500 thousand in Alberta and more are being installed every day, each one a part of a world wide communication. Things sure have changed.

nent supply instead opening up the job, it also allows us the best of both worlds. All but one or two of our clients' small terms and volume (and many of the retail manufacturers) take advantage of this service and their specialized customers which enables by other means, with the exception of those in cities, are subject to agencies and imported by the Assessment Branch. The Branch also handles themselves with their assessment program and is providing an estimate system in rural areas.

...how you could see into Alberta's history?

Albertans will soon be able to take a trip into their Province's past by visiting the new Provincial Museum and Archives of Alberta to be opened in 1981. Displays of books, pamphlets, photos and maps will tell the story of the Province's entire history while artifacts from days gone by will portray the history of the province. The collections themselves are being chosen, and displays will have construction and archival staff of the Alberta Provincial Secretary's Department. Footnote to Alberta's history by photographing collected in the Archives and there will be available for reference and study.

...what the "Ancestral roots" of Alberta are?

Racial movements are activities which are available to all members of a community to help them to understand their physical, mental, spiritual and social well-being. In these movements which must be developed to the full in order to give every Alberta family the chance to live more happily, more creatively, and to prevent family breakdown wherever public Welfare with the municipality, the Social Planning Branch of the Alberta Department of Human Resources is sponsoring a program which is designed to provide a complete opportunity to study this. Under this program, each municipality appoints a director who is responsible for program development such as volunteer services, including for family life education and stimulation for leisure time activities. The Department of Public Welfare will accept no part of the cost of these programs to encourage the cooperation of municipalities and family well-being throughout the Province.

...why you need a permit to hunt antelope in Alberta!

The main reason is to keep the Province's wildlife population at a reasonable level and too many for the carrying capacity of the area in which they live; and in fact that hunting them will have to be discontinued. From studies of the habits and uses animals, the Fish and Wildlife Division of the Alberta Department of Lands and Forests is convinced that antelope country has many antelope can be killed without seriously affecting the survival of the herd. This number controls the number of permits which are issued. To give every hunter an equal chance at his antelope, cannot applicants are made by a draw and each receives a permit which shows he can hunt, where he can hunt, and what the limit is. In this way, Alberta hunters can be sure that there will still be antelope around for their sport next year.

What does Centennial mean to you?

What does Centennial mean to you?

What are you planning for

Centennial?

...of 300,000 immigrants to Canada to put on a star-winning Military Tattoo, and Canada's past 300 years as a nation?

...of the past three of hundreds of activities planned for you to enjoy. But what are the questions? What is the purpose of this? Other questions are: How many are going to this festival, and how many are going to the 100th Anniversary of the founding of Canadian history, and how important is this to you, and how much will you spend?

Alberta Junior Citizen of the Year

You'd think one heroic deed a year was enough for any 11-year-old boy — but not for our award winner, Keith Last summer Keith and his friends, driving the car, were walking along Mill Creek. Attracted by the cries of some children, they discovered 12-year old Debbie Shaul lying face down in about three feet of water. Keith waded into the water, pulled her out, and handed her to Kenny. After making sure she was breathing, they took her home. The other heroic deed? Last April when Keith was on a Boy Scout hike in the

his windbreaker to extinguish a momentary fire. The windbreaker was burned, but the fire was put out.

We congratulate Keith and his outstanding friends, and thank Alberta's Weekly Newspaper Editors for their active co-operation in the Alberta Junior Authors of the Year program, sponsored by Alberta's Integrated-School district ability companies.

This is one of a series of Junior Award announcements. Our special thanks to Mr. Paulsen, Editor of the Beverly Page and to Kathleen, Coordinator, Girl Scouts of A. Edmonstone.

HELPING DEAF CHILDREN TO HEAR

By Lloyd Graham

A HEARING in Northern Ontario, has found the answer to many of the problems of educating deaf children. After a year of testing, the results are in. Deaf children can be taught to hear.

The American's committee of the deaf, a national organization, has been working for years to help deaf children to hear.

The use of a hearing aid, which is a small device that can be worn in the ear, has been found to be the best way to help deaf children to hear.

It is now possible to make a hearing aid that is small and light, and can be worn in the ear. This is the best way to help deaf children to hear.

Carol Manning was surprised by the multitude of children who gathered to see the girls' Christmas arts and crafts exhibit held at the school. The girls had worked together, especially with some sick children and girls and their parents. The ornaments were in their best form and the pictures were made to be creative. The atmosphere was of the Christmas and the girls were very happy.

A black and white photograph showing a winter scene. In the foreground, there is a snow-covered ground. Several bare, dark trees with thin branches are scattered across the middle ground. A fence line is visible in the background, partially obscured by the trees. The overall atmosphere is cold and quiet.
